

EVENT PLANNING GUIDE

CONNECT TO DISCONNECT

2022

2022 U Drive. U Text. U Pay. Distracted Driving

SAMPLE C2D TIMELINE AND IMPLEMENTATION

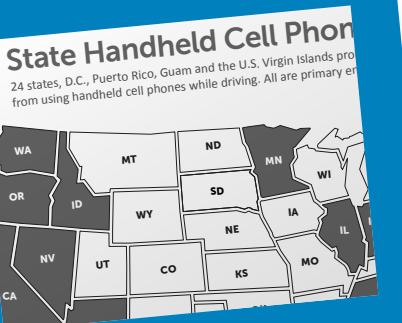

C2D Timeline for April 7, 2022

- Time: 4-hour enforcement period determined by the participating law enforcement agencies (e.g., 2 - 6 p.m.)
- Location: Single or multiple locations as determined by the participating law enforcement agencies
- Enforcement Strategy: Several techniques have been successfully documented during three NHTSA Distracted Driving Demonstrations. A tested enforcement technique is provided for use with this initiative.
- Media: Press release the day of the event, and schedule coverage or shortly after to discuss the results of the effort. Interviews with local newspapers are encouraged.

C2D Implementation Plan

A C2D plan could include the following elements:

- Enforcement plan - time of enforcement operation, location, location strategy, number of dedicated officers
- Media outreach - interviews, press release
- Social media plan - Facebook, Instagram, and Twitter messaging
- Promotion of Distracted Driving Awareness Month and increased collaboration with community partners.

SAMPLE NEWS RELEASE

FOR IMMEDIATE RELEASE: [Date]
CONTACT: [Name, Phone Number, Email]

Note: Before filling in the names of the organization and organization, you MUST contact them for permission to use their names in this news release. You must get their approval for the language of their quotations, additions they may require. Only after this is done should you use their names.

[XX] Drivers Cited During Connect to Disconnect
Annual U Drive. U Text. U Pay. Enforcement Campaign
[City, State] – On April 7, in support of the annual U Drive. U Text. U Pay. Enforcement Campaign, [Local Law Enforcement Agency] successfully coordinated [XX] drivers cited during the annual Connect to Disconnect (C2D) anti-distracted-driving awareness kickoff event, coordinated by participating safety offices and their respective law enforcement partners, aimed to increase enforcement participation through highly visible texting and cell phone use enforcement, and in the issuing of [XX] citations for texting and cell phone use while driving, which is an impaired driving offense.

2022 U Drive. U Text. U Pay. Distracted Driving

SUSTAINED ENFORCEMENT AND COMMUNITY OUTREACH

All law enforcement agencies are encouraged to engage in high-visibility enforcement activities throughout the month of April, and most specifically during the 5-day enforcement period (April 7-11). This enforcement period will increase local awareness about the dangers of distracted driving, and increase the community's perception about violating distracted driving laws.

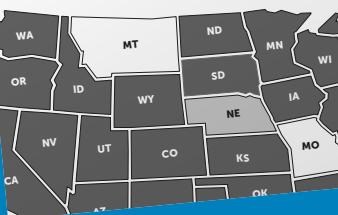

Ideally, law enforcement agencies will engage in a large, collaborative municipal, county, or even state borders. Coordinated enforcement efforts will lead to increased awareness of the seriousness of the distracted driving problem and could lead to increased enforcement of these behaviors, safety and equity must go hand in hand.

While enforcement of texting and other forms of distracted driving law is the epicenter of these behaviors, safety and equity must go hand in hand. Law enforcement officers show in protecting road users from dangerous drivers, prioritizing equity in all aspects of the enforcement of highway safety laws.

Consider the following: Sustained Enforcement During the Month	Media Communication
<ul style="list-style-type: none"> • Daily enforcement is encouraged. • Enforcement strategies include: <ul style="list-style-type: none"> ◦ Integrate distracted driving enforcement into regular traffic patrols. ◦ Observe traffic at intersections. ◦ Choose a high traffic volume area where enforcement is needed. 	<ul style="list-style-type: none"> • Products for Enforcement Kit (PEKit) includes: <ul style="list-style-type: none"> ◦ Fact Sheet/Talkin ◦ Sample Pre-Event ◦ Sample Post-Event

State Text Messaging Enforcement

48 states, D.C., Puerto Rico, Guam and the U.S. Virgin Islands prohibit text messaging for all drivers. All but 4 have primary enforcement laws.

2022 U Drive. U Text. U Pay. Distracted Driving

C2D ENFORCEMENT TECHNIQUES

Spotters
An officer, usually standing on the side of the road in plain clothing, spots another officer when a passing motorist is observed texting or using a cell phone. The officer typically makes the stop and writes the ticket. Use of spotters is effective in elevated roadways, as well as from taller SUVs and trucks, can be effective in drivers manipulating electronic devices given the elevated observation point.

Roving Patrols
Officers observe drivers discretely, from strategically placed patrol vehicles, seeking out drivers using cell phones or texting. Officers have reported success in vantage points, SUVs, and unmarked vehicles are particularly effective in identifying violators. Roving patrols that target high-risk and high traffic volume areas and communities have been successful.

This technique can also be done with two officers in one vehicle, where one officer stops the driver and calls out the violation, followed by the driver initiating the stop. This approach is safety, allowing the driver of the unmarked vehicle to focus on the driver.

Motorcycle Patrols
A motorcycle provides several advantages to the detection of violators. The higher vantage point, offering a better view into a passenger vehicle to detect drivers using cell phones.

U DRIVE. U TEXT. U PAY

Annual U Drive. U Text. U Pay. Enforcement Campaign

[City, State] – On April 7, in support of the annual U Drive. U Text. U Pay. Enforcement Campaign, [Local Law Enforcement Agency] successfully coordinated [XX] drivers cited during the annual Connect to Disconnect (C2D) anti-distracted-driving awareness kickoff event, coordinated by participating safety offices and their respective law enforcement partners, aimed to increase enforcement participation through highly visible texting and cell phone use enforcement, and in the issuing of [XX] citations for texting and cell phone use while driving, which is an impaired driving offense.

2022 U Drive.

Connect to Disconnect (C2D)
Connect to Disconnect (C2D) is an awareness initiative coordinated by law enforcement agencies across the country. The 2022 U Drive. U Text. U Pay. runs through April 11.

The goals of C2D are to reduce phone and texting ban driving lives and reduces crash risk. While law enforcement agencies target dangerous drivers, primarily those who make the mistake of driving while using a mobile device.

The Ask
The importance of enforcement agencies during Distracted Driving Awareness Month. April 7, during which jurisdiction's cell phone use while driving is illegal. We encourage the public to make this year's C2D a success.

Campaign Overview

Connect to Disconnect

Connect to Disconnect is a 4-hour national distracted driving enforcement and awareness initiative coordinated by state Highway Safety Offices and law enforcement agencies across the country. The initiative will take place on April 7, 2022, the first day of the 2022 *U Drive. U Text. U Pay.* distracted driving high-visibility enforcement period that runs through April 11.

The goals of C2D are to demonstrate a nationwide commitment to enforcing cell phone and texting bans, and to reduce traffic crashes caused by distracted drivers, ultimately preventing injuries and deaths associated with cell phone use and texting while driving.

C2D - The Ask

The importance of ending distracted driving cannot be overemphasized. Local law enforcement agencies are being asked to conduct a special 4-hour enforcement operation on April 7, during which officers will ticket drivers for violating their state's or local jurisdiction's cell phone or texting ban.

We encourage the states and Regional Offices to work with local law enforcement agencies to make this year's C2D program a success.

Campaign Summary

Connect to Disconnect is a 4-hour national distracted driving enforcement and awareness initiative coordinated by state Highway Safety Offices and law enforcement agencies across the country.

2022 U Drive. U Text. U Pay. Distracted Driving Campaign

SAMPLE C2D TIMELINE AND IMPLEMENTATION PLAN

C2D Timeline for April 7, 2022

- Time: 4-hour enforcement period determined by the participating law enforcement agencies (e.g., 2 - 6 p.m.)
- Location: Single or multiple locations as determined by the participating law enforcement agencies
- Enforcement Strategy: Several techniques have been successfully implemented and documented during three NHTSA Distracted Driving Demonstration Projects. A list of tested enforcement techniques is provided for use with this initiative.
- Media: Press release the day of the event, and schedule coverage the day of the event or shortly after to discuss the results of the effort. Interviews with local TV, radio, and newspapers are encouraged.

C2D Implementation Plan

A C2D plan could include the following elements:

- Enforcement plan - time of enforcement operation, location, identified enforcement strategy, number of dedicated officers
- Media outreach - interviews, press release
- Social media plan - Facebook, Instagram, and Twitter messaging
- Promotion of Distracted Driving Awareness Month and increased enforcement in collaboration with community partners.
- Distracted driving observations before and after the enforcement effort to document and demonstrate the extent of the problem to the community.

Spanish

Manejar y Textear – La Vas A Pagar.

Campaña sobre la Distracción al Manejar 2022

MUESTRA DE CRONOLOGÍA Y PLAN DE IMPLEMENTACIÓN DE C2D

Cronología de C2D para el 7 de abril de 2022

- Hora: período de cumplimiento de 4 horas de la ley determinado por las agencias del orden público participantes (por ejemplo, 2:00 - 6:00 PM)
- Ubicación: Ubicaciones únicas o múltiples según lo determinen las agencias del orden público participantes
- Estrategia de Cumplimiento de la Ley: Se han implementado y documentado con éxito varias técnicas durante tres Proyectos de Demostración de NHTSA sobre la Distracción al Manejar. Se ha proporcionado una lista de técnicas probadas de cumplimiento de la ley para usar con esta iniciativa.
- Medios de Comunicación: Comunicado de prensa el día del evento, y programar la cobertura del día del evento o poco después para discutir los resultados del esfuerzo. Se recomiendan entrevistas con televisión, radio y periódicos locales.

Plan de Implementación de C2D

Un plan de C2D podría incluir los elementos siguientes:

- Plan de cumplimiento de la ley - hora de la operación de cumplimiento de la ley, ubicación, estrategia identificada de cumplimiento de la ley, número de agentes dedicados
- Difusión por los medios de comunicación - entrevistas, comunicado de prensa
- Plan de redes sociales - mensajes de Facebook, Instagram y Twitter
- Promoción del Mes de Concientización sobre la Distracción al Manejar y mayor cumplimiento de la ley en colaboración con los socios comunitarios.
- Observaciones de la distracción al manejar antes y después del esfuerzo de cumplimiento de la ley para documentar y demostrar el alcance del problema a la comunidad.

English

2022 U Drive. U Text. U Pay. Distracted Driving Campaign

C2D ENFORCEMENT TECHNIQUES

Spotters
An officer, usually standing on the side of the road in plain clothing, radios or calls ahead to another officer when a passing motorist is observed texting or using a cell phone. The second officer typically makes the stop and writes the ticket. Use of spotters on overpasses and elevated roadways, as well as from taller SUVs and trucks, can be effective in identifying drivers manipulating electronic devices given the elevated observation angle.

Roving Patrols
Officers observe drivers discretely, from strategically placed patrol vehicles, while actively seeking out drivers using cell phones or texting. Officers have reported that the use of higher vantage points, SUVs, and unmarked vehicles are particularly effective tools to identify violators. Roving patrols that target high-risk and high traffic volume areas in their communities have been successful.

This technique can also be done with two officers in one vehicle, where the passenger spots and calls out the violation, followed by the driver initiating the stop. The advantage with this approach is safety, allowing the driver of the unmarked vehicle to focus on driving.

Motorcycle Patrols
A motorcycle provides several advantages to the detection of violators. A motorcycle has a higher vantage point, offering a better view into a passenger vehicle than from a typical patrol vehicle. This is useful for directly observing a driver who uses a phone below the window frame. Another advantage is an officer's maneuverability on a motorcycle. An officer on a motorcycle can do things that officers in full-size passenger vehicles cannot do. Motorcycle officers, for example, can drive right up beside an offender, oftentimes unnoticed, and look down into the vehicle and more easily observe violations.

Intersection Enforcement
At an intersection, an unmarked vehicle is parked perpendicular to traffic in a location that provides the officer an unobstructed view of traffic. Officers can primarily watch for texting violations, in addition to other obvious traffic violations. This strategy is particularly appealing to officers, who find it to be an easy way to observe traffic and enforce the law.

Stationary/Covert Enforcement
Officers parked in either marked or unmarked vehicles look for cell phone/texting violations: on limited access highways; on secondary roads at intersections, parking lots, or

Manejar Y Textear – La Vas A Pagar.
Campaña sobre la Distracción al Manejar 2022

ESTRATEGIAS DE CUMPLIMIENTO DE C2D

Observadores
Textear, mandar mensajes y otros tipos de la distracción al manejar se encuentran en niveles epidémicos. El cumplimiento de la ley juega un papel integral en la reducción de este comportamiento peligroso. La seguridad y equidad deben mano a mano identificando las mejores prácticas para eliminar resultados sesgados y dispares basados en la aplicación de la ley. La dedicación que muestra la comunidad policial al proteger a los usuarios de la carretera de los conductores peligrosos es vital, y priorizar la equidad en todos los aspectos de la aplicación de las leyes de seguridad vial es esencial. Deben elegirse lugares de vigilancia y puestos de control para garantizar que la aplicación de la ley se lleve a cabo de manera equitativa. La distracción al manejar ocurre en todas las comunidades, y la aplicación de la ley debe llevarse a cabo sin prejuicios en un mejor esfuerzo por aumentar la confianza pública en la legitimidad de aplicar las leyes de tráfico.

Patrullas Ambulantes
Los agentes observan discretamente a los conductores desde vehículos de patrulla estratégicamente ubicados, mientras activamente buscan a los conductores que están texteando o usando celulares. Agentes han informado que el uso de puntos de observación más altos, SUVs y vehículos sin marcas son herramientas particularmente efectivas para identificar a los infractores. Las patrullas ambulantes que se dirigen a áreas de alto riesgo y volumen de tráfico en sus comunidades han tenido éxito.

Esta técnica también se puede hacer con dos agentes en un vehículo. El pasajero ve y anuncia la violación, seguida por la parada iniciada por el conductor. La ventaja de este enfoque es la seguridad, que permite que el conductor del vehículo sin marcas se concentre en manejar.

Patrullas De Motocicletas
Una motocicleta proporciona varias ventajas para la detección de infractores. Una motocicleta tiene un punto de observación más alto, que ofrece una mejor vista de un vehículo de pasajeros que desde un vehículo de patrulla típico. Esto es útil para observar directamente a un conductor que usa un teléfono debajo del marco de la ventana. Otra

U DRIVE. U TEXT. U PAY CAMPAIGN SAMPLE NEWS RELEASE

FOR IMMEDIATE RELEASE: [Date]
CONTACT: [Name, Phone Number, Email]

Note: Before filling in the names of the organization and organization spokesperson, you MUST contact them for permission to use their names in this press release. Also, you must get their approval for the language of their quotations, and any changes or additions they may require. Only after this is done should you issue the press release.

[XX] Drivers Cited During Connect to Disconnect
Annual U Drive. U Text. U Pay. Enforcement Campaign Off to Strong Start

[City, State] – On April 7, in support of the annual U Drive. U Text. U Pay. high-visibility enforcement campaign, [Local Law Enforcement Agency] successfully launched its [first, second, third, etc.] Connect to Disconnect (C2D) distracted driving initiative. This 4-hour, anti-distracted-driving awareness kickoff event, coordinated by participating state highway safety offices and their respective law enforcement partners, aimed to increase law enforcement participation through highly visible texting and cell phone law enforcement. The C2D event resulted in the issuing of [XX] citations for texting and cell phone-use-while-driving violations. These expanded efforts to protect against impaired driving were conducted in a fair and equitable way.

“We participate in this campaign because it works,” said [local law enforcement official]. “Our goal isn’t to write more tickets – it’s to save more lives. Everyone knows it’s dangerous to text and drive. But we still see people on their phones behind the wheel every day. Sometimes a ticket is what gets through to someone. We’d rather a driver learn a lesson from a citation than from a crash.”

“We are also committed to using enforcement strategies that are based in safety and equity to eliminate disparities in traffic safety engagement. Our mission is to protect road users from dangerous drivers, and to prioritize equity in all aspects of the enforcement of highway safety laws,” said [local law enforcement official].

According to the U.S. Department of Transportation’s National Highway Traffic Safety Administration (NHTSA), between 2014 and 2020, nearly 23,000 people died in crashes involving distracted drivers. While fatalities from motor vehicle crashes increased significantly in 2019, distraction-related fatalities increased slightly. NHTSA reports that the number of deaths linked to driver distraction was 3,142 nationwide, or over 8% of all fatalities, in 2020. This represents a slight increase over the year 2019, or 23 more fatalities.

[XX] CONDUCTORES MULTADOS DURANTE CONECTA PARA DESCONECTAR
Campaña Anual De Cumplimiento De La Ley, Manejar Y Textear – La Vas A Pagar, Ha Tenido Un Buen Comienzo

[Ciudad, Estado] – El 7 de abril, en apoyo de la campaña anual de cumplimiento de alta visibilidad de la ley, *Manejar Y Textear - La Vas A Pagar*, [Agencia Local del Orden Público] lanzó con éxito su [primera, segunda, tercera, etc.] iniciativa sobre la distracción al manejar, *Conecta Para Desconectar* (C2D). Este evento nacional de lanzamiento de 4 horas de concientización sobre las leyes de no manejar distraído, coordinado por las oficinas estatales de seguridad vial y sus enlaces policiales respectivos, tuvo como objetivo aumentar la participación de los organismos policiales a través del cumplimiento de alta visibilidad de las leyes sobre el uso de los celulares al manejar y textear. El evento C2D resultó en la emisión de [XX] multas por infracciones de las leyes sobre el uso de celulares al manejar y textear.

“Participamos en esta campaña porque funciona”, dijo [funcionario local del orden público]. “Nuestra meta no es imponer más multas – es salvar vidas. Todos saben que es peligroso manejar y textear. Pero todavía vemos personas usando los celulares mientras están detrás del volante – todos los días. A veces, una multa es lo que llega a alguien. Preferimos que alguien aprenda una lección con una multa que de un choque”.

“También estamos comprometidos a utilizar estrategias de aplicación de la ley que se basen en la seguridad y la equidad para eliminar las disparidades en el compromiso de la seguridad vial. Nuestra misión es proteger a los usuarios de las carreteras de los conductores peligrosos y priorizar la equidad en todos los aspectos de la aplicación de las leyes de seguridad vial”, dijo [funcionario local encargado de hacer cumplir la ley].
